RE: EXECUTIVE DIRECTOR

Dear members of the interview panel:

I would like to take a moment to thank you for the time you spent with me on February 15, 2018. Interviews can be stressful, so I am very grateful for how comfortable you made me feel throughout the process.

One thing I regret has been that the 5-minute time limit was too short and distracting for me to provide well structured answers. I will put it in my self-improvement list. Since you gave me another opportunity to elaborate further on my answers, I hope to assure you that I will:

- 1) Initiate a communication program that will coordinate entire community members including the press and social media;
- 2) Promote regional economic growth through “a Sustainable Town Linking Master Plan for Local Branding and Marketing”;
- 3) Take advantage of the upcoming digital-innovation era by pursuing ideas of Smart City and Smart Region;
- 4) Help preparing digital infrastructure by promoting high-speed broadband system and other new technologies, while looking into USDA Community Connects Grant;
- 5) Retain young workers by setting off business incubator program, while collaborating with school districts and the community college system;
- 6) Find ways to manage BRPC’s budget by looking into details of legal contracts, feasibility of creating a contingency account, and usability of future resources including private funding;
- 7) Assist local policy developments; and
- 8) Manage a sustainable team of wonderful professionals at the BRPC.

Again, I appreciate the opportunity.

Thank you.

I am, mostly respectful,

Sungman Kim
