Ms. Koirala detailed the proposed adjustments to the 2026-2030 TIP, including: a reduction of \$5,902,763 for the reconstruction of Mount Washington Road in Egremont due to a low bid resulting in reduced cost. Originally scheduled for 2027, the reconstruction of Mount Washington Road in Egremont was programmed for a value of \$11,099,573, but due to the low bid this additional funding is unnecessary. With remaining earmarked funds made available, \$416,182 will be assigned to the reconstruction of East Street in Pittsfield.

Prior to the vote Ms. Koirala sought clarification that the Egremont project had been awarded, which Mr. Moore confirmed it had. Originally schedule for 2025, the following programs are being moved to 2026: the Adventure Trail in North Adams will have an earmarked budget of \$1,250,000 – as will the Wildlife Crossing on I-90, which also has a non-federal aid funded discretionary earmark of \$391,440. With the remaining funds from the reconstruction of Mount Washington Road in Egremont, \$4,994,080 will be programmed to the reconstruction of Ashland Street in North Adams.
