Notice of Nondiscrimination Rights and Protections to Beneficiaries

Federal "Title VI/Nondiscrimination" Protections

The Berkshire Regional Planning Commission (BRPC) operates its programs, services, and activities in compliance with federal nondiscrimination laws including Title VI of the Civil Rights Act of 1964 (Title VI), the Civil Rights Restoration Act of 1987, and related statutes and regulations. Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of race, color, or national origin (including limited English proficiency), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance. Related federal nondiscrimination laws administered by the Federal Highway Administration, the Federal Transit Administration, or both prohibit discrimination on the basis of age, sex, and disability. These protected categories are contemplated within MassDOT's Title VI Programs consistent with federal interpretation and administration. Additionally, BRPC provides meaningful access to its programs, services, and activities to individuals with limited English proficiency, in compliance with US Department of Transportation policy and guidance on federal Executive Order 13166.

State Nondiscrimination Protections

BRPC also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 §§ 92a, 98, 98a, prohibiting making any distinction, discrimination, or restriction in admission to or treatment in a place of public accommodation based on race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry. Likewise, MassDOT complies with the Governor's Executive Order 526, section 4 requiring all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran's status (including Vietnam-era veterans), or background.

Introduction

The Unified Planning Work Program (UPWP) is a description of the annual program for a continuing, cooperative and comprehensive (3C) transportation planning process in the Berkshire region. As staff to the Berkshire Metropolitan Planning Organization (MPO), the Berkshire Regional Planning Commission (BRPC) is responsible for developing the UPWP in cooperation with the MPO and staff of member transportation agencies including the Berkshire Regional Transit Authority (BRTA) and Massachusetts Department of Transportation (MassDOT).

The UPWP provides an indication of regional long and short-range transportation planning objectives, the budget necessary to sustain the overall planning effort, and the sources of funding for each specific program element. All tasks will be performed by BRPC in cooperation with appropriate agencies including BRTA. The only exception is task 2.3, Traffic Data Collection which will be performed by a consultant.

The work tasks within this UPWP reflect issues and concerns from transportation agencies at the federal, state and local levels. The UPWP continues BRPCs emphasis on tasks leading to implementation of transportation improvements. Many of these tasks support the vision, goals and objectives of the *Regional Transportation Plan* and provisions of federal legislation, particularly the Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58, also known as the "Bipartisan Infrastructure Law), the Clean Air Act Amendments of 1990 (CAAA), the Americans with Disabilities Act (ADA), and the Civil Rights Act of 1964.

This UPWP will focus on the following:

- Management of the 3C Process and TIP Development
- Preparation of a new TIP and prioritization of new projects
- Corridor access and land use management for communities
- Continued investment in transportation software and professional development.
- Safety as a major consideration for all travel modes
- Maintenance of the Pavement Management System.
- Annual Title VI reporting
- Support for bicycling and pedestrian travel and implementing Complete Streets initiatives
- Improving the accuracy and scope of data used in transportation planning, including traffic volumes, crash data, land development and major businesses
- Transportation technical assistance to local governments
- Travel Demand Model Updates
- Performance based planning and performance measures
- Increased use of clean, alternative transportation modes
- Strategies to reduce GHG emissions
- Expansion of transit and rail service
- Monitor Berkshire Flyer pilot service
- Outreach and interregional coordination

The Federal Highway Administration (FHWA) continues to recognize the importance of the UPWP to address ten planning factors, specifically during the development of the UPWP:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and non-motorized users;
3. Increase the security of the transportation system for motorized and non-motorized users;
4. Increase the accessibility and mobility options available to people and for freight;
5. Protect and enhance the environment, promote energy conservation, and improve quality of life;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
10. Enhance travel and tourism.

This UPWP addresses the above ten Planning Factors in a variety of ways, the sum of which is comprehensive. The way each planning task/activity applies to the factors is depicted in the following table.

In addition to the FHWA's ten Planning Factors, tasks within the UPWP address the Planning Emphasis Areas jointly developed by FHWA and FTA on December 30, 2021. These Planning Emphasis Areas (PEAs) are intended to be utilized in the development of metropolitan and statewide planning and research programs. The PEAs encourage MPOs to focus on climate and clean energy, equity, complete streets, public involvement, Department of Defense coordination, Federal Land Management Agency coordination, planning and environmental linkages and data sharing in the transportation planning process.

The descriptions of the tasks to be accomplished and the budgets for these tasks are based on the best estimate of what can be accomplished within the limits of available resources. If, in the performance of this work program, it becomes apparent that certain tasks cannot be accomplished due to changing or unforeseen circumstances, the UPWP will be adjusted by redefining the scope of the tasks and/or reallocating funds among tasks. Such adjustments will be made in cooperation with MassDOT, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Berkshire Regional Transit Authority (BRTA), and other concerned agencies.

On November 15, 2021, the [Infrastructure Investment and Jobs Act \(IIJA\) \(Public Law 117-58, also known as the "Bipartisan Infrastructure Law"\)](#) was signed into law. The BIL does continue all requirements that applied to the Metropolitan Planning Program under the Fixing America's Surface Transportation (FAST) Act. It also requires each MPO to use at least 2.5% of its PL funds on specified planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities. This requirement is addressed through Task 3.2, Bicycle and Pedestrian Planning through Complete Streets activities; the task budget of \$54,000 exceeds the 2.5% requirement of expenditure on this task.

Public input and comment are important aspects in the development of planning documents such as this UPWP. During the development of this plan, information was posted to BRPCs website via announcements and newsletter articles. Meetings of the Transportation Advisory Committee and the Metropolitan Planning Organization were another outlet to gain more insight and comment on the development of the UPWP. A public notice was also published announcing the public comment period and information on how to access the draft document and provide comment. The process outlined above for public input and comment is in accordance with the MPO's Public Participation Plan.

Transportation Funding Sources

Federal Highway Administration (FHWA)/MassDOT -MassDOT receives funds from several FHWA programs that are passed through to planning agencies to conduct transportation planning activities. These include Metropolitan Planning (PL), Statewide Planning and Research (SPR), appropriations. Funding from these programs is apportioned to states on the basis of population in urbanized areas and relative to the amount of highway construction funds the state receives. MassDOT develops annual contracts with regional planning agencies to conduct transportation related planning activities utilizing the PL and SPR funds received from FHWA.

Within the Berkshire region the predominant source of funding is a combination of federal (PL) and state funds. These funds are allocated to regional planning agencies in the state, using a formula agreed to by the affected agencies. Funds must be spent within the year allocated. Any unspent funds will be de-obligated at the end of each federal fiscal year. The decision to re-obligate unused PL funding is at the discretion of the State. For federal fiscal year 2024, the Berkshire region's PL allocation is \$758,322. The UPWP meets FHWA's requirement that at least 33% of PL funds result in tangible products.

Federal Transit Administration (FTA)/MassDOT/BRTA -Two types of funds are available for transit planning in the Berkshire region. Section 5303 and Section 5307. Section 5303 funds are designated for the use of planning and technical studies related to urban mass transportation. They are passed from FTA through MassDOT to the regional planning agencies in the state. This FFY 2024 UPWP will be funded by a combined PL/5303 contract which will be administered by the FHWA and the match for 5303 funding will be provided by MassDOT.

Section 5307 funds can be used for planning as well as other purposes and are distributed by FTA on the basis of each transit authority's service area population. However, because the amount allocated to the BRTA is just enough to cover the capital and operating needs of that agency, it has opted not to use any of those funds for planning. Therefore, no Section 5307 planning work is included in this UPWP. The time periods, or "program years", for the various funding sources are outlined in the following chart:

Funding Source:	Fiscal Period:
FHWA(PL)/MassDOT	October 2023 through September 2024
FTA/MASSDOT 5303	October 2023 through September 2024

Geographical Distribution of UPWP Funded Studies

BRPC staff conducted a geographical distribution of transportation planning tasks/studies completed in connection within the UPWPs spanning the last five years. This assessment is similar to that utilized in the TIP to identify projects that potentially impact minority and low-income block groups in the region and will influence future work. The map below depicts the studies/task in relation to these areas.

In performing this assessment, UPWPs from the past five years were reviewed to identify the transportation planning tasks which were undertaken and completed in the Berkshire MPO region. In addition to these major planning efforts, other activities such as data collection, local technical assistance requests and regional activities including the preparation of the Transportation Improvement Plan (TIP) and the Coordinated Human Services Transportation Plan were conducted as UPWP work tasks.

Geographical Distribution of UPWP Funded Studies

From a social justice point of view, there is a strong correlation between where past projects /studies have occurred and Environmental Justice communities. There are only two instances of projects occurring in a community that has not met at least one environmental justice threshold. This also holds for new projects and studies which will occur with this FFY 2024 UPWP. While it may appear that many of the UPWP studies or projects may be focused on a select number of communities, each of the study efforts benefit all residents who travels to and within the urbanized area of Berkshire County. There has not been any instance where a community requesting assistance with a transportation issue has been denied help.

UPWP Administrative Adjustments and Amendments

During the course of the year, there may be instances when a change to the Unified Planning Work Program (UPWP) is necessary. These changes can range from minor to major. The following section has been developed to outline the process that will be followed to effectuate changes to the UPWP. Changes which are relatively minor in nature will be handled as Administrative Adjustments; modifications which are more significant will be handled as an amendment. Below are general guidelines regarding the conditions that constitute an administrative adjustment or amendment to the UPWP. All proposed administrative adjustments and amendments must be presented to the MPO for consultation. Both adjustments and amendments must be voted on by the MPO members; amendments must be released for 21-Day public comment period prior to endorsement.

UPWP Administrative Adjustment	UPWP Amendment
Reallocation of budget funds when below 25% of total task cost	Addition or Removal of UPWP task(s)
Adjustment to a project scope	Significant change in project scope, cost, and/or time allocation
	Change in start/completion dates within the originally intended federal fiscal year(s)
	Funding increases or decreases equal to or greater than 25% of the UPWP task budget; and funding transfers between tasks equal to or greater than 25% of the UPWP task budget.

Submission of Budget Reallocation Request

Following MPO endorsement of the adjustment or amendment, a Budget Reallocation Request form will be prepared and submitted to MassDOT Office of Transportation Planning (OTP). All fields of the form will be filled out with clear indication that the MPO was consulted prior to submission. Back up documentation will be submitted, including the UPWP description of the task(s) affected, original budget, revised budget, and justification for the request. MassDOT is strongly encouraged to provide final approval in an expeditious manner.

Definition of Significant Change:

With respect to an amendment to the UPWP attributed to a significant change, it is considered significant when it alters the original intent of the project or intended conclusions of the project. It may also entail a change to the project scope, budget, project schedule and time allocation. A full amendment to the UPWP including a public comment period and FHWA approval will be required for budget reallocations that exceed twenty five percent of the total task budget.

Unified Planning Work Program: Appendix

1. OTHER TRANSPORTATION ACTIVITIES INVOLVING BERKSHIRE REGIONAL PLANNING COMMISSION

The City of North Adams is receiving \$750,000 in federal funding to rethink the Central Artery and consider ways to better connect the downtown to Massachusetts Museum of Contemporary Art. The city partnered with Mass MoCA on the application last fall for the Bipartisan Infrastructure Act's Reconnecting Communities Pilot Program. The study is anticipated to provide scenarios for moving forward with ways to better connect the downtown area, including the MOCA museum. BRPC staff are expected to participate in this transportation planning effort.

The Berkshire Regional Planning Commission was awarded funding from the nationally competitive Safe Streets and Roads for All (SS4A) grant program. This funding is provided through the US Department of Transportation (USDOT), as authorized by the Bipartisan Infrastructure Law (BIL). SS4A program funding will be utilized to develop a Comprehensive Safety Action Plan for Berkshire County. Along with support from the MassDOT Office of Transportation Planning (OTP), the budget for BRPC's SS4A Action Plan initiative is \$248,231.
